Hazards identification		This detector tube, when based on GHS and JIS Z 7252(2019), is corresponded to an article. Under normal use conditions, emits only a small amount of chemical substances, for example, trace amounts of chemical substances, and can be handled as not showing physical and chemical hazards or health hazards to operators. Therefore, this product does not fall under the GHS classification standard.				
Composition and information on ingredients		A product made by impregnating porous silica gels(5-15%) with oleum(5-10%), selenium dioxide( $<0.1\%$ ) and chromium(VI) oxide( $<1\%$ ), and sealing them in glass tubes.				
First-aid measures		Eyes: If the filler enters the eye, immediately flush with plenty of water for at least 15 minutes and see a doctor.  Skin: If the filler comes into contact with the skin, immediately wash with soapy water and flush with plenty of water.  Inhalation: Not applicable.  Ingestion: If the filler is swallowed, rinse the mouth immediately and see a doctor.				
Fire fighting r	Fire fighting measures		No special measures are needed.			
Accidental release measures		If the detector tube is broken, wear appropriate protective equipment to prevent the filler from adhering to or inhaling the skin or eyes.				
Handling and storage		Handling	detector tube is	When the ends of the detector tube are broken off to prevent injury, the detector tube is moved away from the eye. Do not touch with bare hands any cuts, fittings, or fillers in the event of breakage of the detector tube.		
		Storage	Store in a cold/	dark place		
Exposure control and protection measures		Not applicable.				
Physical and o	chemical properties	Appearance: A glass tube filled with reagents and sealed at both ends. Flash point: Not applicable. Ignition point: Not applicable.				
		ot applicable. avoid: Direct sunlight,				
Toxicological information		Filled material is made by adsorbing a small amount of chemicals to porous silica gels, and there is no hazard information for this. The following describes the hazards to humans of the chemicals and carries as a pure sobstance.
